## PROPOSES IT BE LEFT WITH BOARD

President Suggests Chief Obstacle to  
Settlement of Rail Strike be  
Put up to Arbiters

### NEW PROPOSALS MADE TODAY

Harding Asks Shopmen to Return to  
Work Pending Decision on  
Seniority Question

(By United Press)  
Washington, August 7.—President Harding in a new move to end the nation wide railroad strike today proposed that the seniority question—the chief obstacle to a settlement—be submitted to the railroad labor board for determination.

In messages to heads of the strikers and the rail executives, the president said that only the question of seniority "remains in dispute and bars a settlement."

The president appealed to the striking rail workers to return to work pending the decision.

Harding also asked that the rail executives agree to take the workers back, leaving the seniority question to be decided by the government labor board's tribunal.

Harding communicated his new plan personally to Bert M. Jewell, leader of the strikers, in conference at the White House, and DeWitt Cuyler, chairman of the Association of Rail Executives in New York.

Harding pointed out to the executives that they had accepted the first two points of the compromise plan and that the strike leaders had accepted all these.

In view of the fact that both factions had agreed to abide by the decisions of the railroad labor board, Harding stated he felt that the seniority question, the chief point of dispute, should be placed with the board for decision.

By CHARLES R. LYNCH

Chicago, August 7.—Union leaders here were confident that this week would decide if peace was possible in the rail strike.

If the latest reported proposals of the president fail to end the walk-out, the battle will be fought out to a finish, it was stated at shop craft headquarters.

With Bert M. Jewell, president of the shipment in Washington, the Continued on Page Eight

## RIOTING AT JOLIET CLAIMS TWO LIVES

Troops Held in Readiness at Chicago  
and Springfield in Case Call  
is Issued.

### MOB STORMS WORKER'S HOME

Joliet, Ill., Aug 7.—A police squad guarding the Elgin, Joliet and Eastern shop here after investigating a riot which claimed two lives early today, got under way.

Troops were held in readiness at Chicago and Springfield. State investigators arrived here to see if the guardsmen were needed.

A mob which stormed the home of Fred Nelson, car painter who refused to strike, had entirely disappeared. The riot started when Sheriff James Newkirk attempted to arrest leaders of the mob which surrounded Nelson's home.

The sheriff with Philip Reitz, chief of the railroad detectives, plunged into the crowd. They were greeted with a fusillade of shots. Both fell. Reitz was killed instantly. Newkirk is in a hospital in a dangerous condition.

As the mob closed in after the officers fell, Walter Lockard, a deputy, opened fire. An unidentified Italian dropped dead, shot through the heart.

Spectators put in a riot call for police. When the police arrived the mob had already dispersed.

First Deputy Sheriff Lindgren decided his forces could not cope with the situation. He wired the governor for troops.

Joliet police on the other hand, declared the condition was well in hand and that the troops were unnecessary.

## SAFETY SAM

In life, John Doe always thought himself too slick to get caught By a street car, train or anything; His speed he seldom lessened, though, And while we really do not know, We hope he went where angels sing.

## CHARGES REFILED IN CIRCUIT COURT

Luther Hungerford, Arthur Weidner  
and Jesse Hungerford Plead  
Not Guilty

### MEMBERS OF SEINING PARTY

Charley Holden is Fined For Having  
Seine in His Possession—Other J.  
P. Cases

Justice Stech spent a busy afternoon Saturday when several arrests were made and the defendants arraigned before him to enter pleas. The three men implicated in a seining party near Moscow last week, appeared and entered pleas of not guilty, and today the charges were withdrawn from this court and refiled in the circuit court.

The men were Luther Hungerford, Arthur Weidner and Jesse Hungerford. Charley Holden of north of Moscow was also arrested by the deputy state game wardens Saturday on a charge of unlawfully having a seine in his possession, and he pleaded guilty, receiving a fine of \$5 and costs.

The suit of Edith Ellerman of Franklin county against Charley Ryon of this city was heard Saturday the case being for paternity proceedings, and after the conclusion of the evidence, Justice Stech bound the defendant over to the circuit court on a \$500 bond.

Morton Barber who had previously been arrested for a charge of provoke and public indecency appeared and pleaded not guilty. The defendant is a resident of Carthage.

Frank Moore and his son George Moore, living near New Salem, also were arrested Saturday afternoon on a charge of unlawfully operating their automobiles, it being alleged that they only displayed one license. Each pleaded guilty and was fined \$1 and costs.

## MRS. LORA REYNOLDS DIES

Wife of George Reynolds Expires  
Sunday of Blood Poisoning

Mrs. Lora Reynolds, age 29, wife of George Reynolds, expired Sunday afternoon at 1:30 o'clock at the family home, 1020 West Market street, death being caused from blood poisoning of which she had been seriously ill for a week. The deceased is survived by the husband and three children.

The funeral services will be conducted Tuesday afternoon at two o'clock at the late residence in charge of the Rev. C. S. Black, and burial will be made in East Hill cemetery.

### TAKE STRIKE VOTE

Indianapolis, Ind., Aug. 7.—A strike vote among all telegraphy and station agents of the Big Four railroad started today. Edward J. Whelan, general chairman of the union, sent out 1,500 ballots to determine whether that class of employees should walk out and protest against wage reduction and conditions proposed by the management.

### 8 POUND GIRL IS BORN

A baby girl weighing eight pounds was born this morning to the wife of Morris Howell at their home in North Perkins street. The baby was named Peggy Jane.

## CHAUTAUQUA IN AN FARES WELL WITH AUSPICIOUS START STATE TAX BOARD

Two Appreciative Audiences Hear

Two Lectures Sunday

### TICKETS SELLING FAST

Col. W. G. Everson Stresses Importance  
of Doing Something Besides  
Making Money

### OFFICIAL PROGRAM

Tonight

7:30 p. m. Grand Concert —  
Scholle Orchestra.

Tuesday, August 8

2:00 p. m. Concert — Viso-  
chi's Trio.

2:15 p. m. Children's Hour—  
Mrs. Daisy Asman.

3:00 p. m. Lecture — Mrs.  
Maude Ballington Booth.

7:30 p. m. Prelude — Viso-  
chi's Trio.

8:00 p. m. Lecture — Rev. W.  
S. Rice.

Wednesday, August 9

2:00 p. m. Concert — Davies  
Light Opera Co.

2:15 p. m. Children's Hour —  
Mrs. Daisy Asman.

7:30 p. m. Opera — Davies  
Light Opera Co.

Two appreciative audiences were present Sunday for the opening sessions of the Rush county Chautauqua, when the two musical preludes were rendered by the Scholle family orchestra and the addresses given by the Rev. J. S. E. McMichael, and Col. W. G. Everson.

The attendance was the average for the opening day, and the sale of season tickets was better this year than last year, with only a few of the guarantors' tickets being unsold, but indications are that more would be sold today and tonight. Single admission receipts were equal to those of the opening day last year.

Several improvements on the grounds this year are very commendable, as the new quiet zone fence prevents anyone from walking next to the building. Gateways are made at the various entrances into the coliseum. A corps of ushers also are present to supervise the seating, and avoid congestion on the inside. Two ushers are assigned to each entrance.

### SCHOLLE FAMILY ORCHESTRA

The Scholle orchestra, which appeared here last year, was given a big ovation at the two concerts Sunday and they are even better this year than before. Tonight they will present the entire program, and the seating capacity of the coliseum will no doubt be taxed because of their popularity.

The Rev. Mr. McMichael, who delivered the address, "Shadows on a Great Soul" at the afternoon session dealt with the life history of Abraham Lincoln, the "Man of Sorrows", in which he depicted the pitiful side of his life.

The speaker went back to the time when Lincoln was seven years old, when the first great sorrow befell him with the death of his mother and recited the sorrows that came upon him as he climbed the heights, and became president.

He most eloquently related incidents which occurred while he was president during the Civil War, Continued on page three

Rush County Escapes Without Hori-  
zontal Increase in Real Estate  
Appraisements

### IS SIXTH IN THE STATE.

Land And Improvements Are Raised  
Ten Percent in Fayette and Shel-  
by Counties

Rush county fared well with the state board of tax commissioners this year. While the appraisements of the county, both real estate and improvements, as well as personal property, were not changed by the board, the tax values of land and improvements in twenty-seven counties were raised and the personal property in two-thirds of the counties of Indiana were increased.

This speaks volumes for the way assessment of property for taxation purposes was conducted this year. In the first place, the township assessors accepted and listened to the advice of the township farmers' associations, each of which had a special committee to co-operate with the taxing officials to arrive at the true cash value of farm lands and improvements, also farm personal property.

This co-operative spirit was responsible, more than any other one agency, taxing officials believe, in bringing about the satisfactory results in this county. This same spirit of co-operation extended to the county board of review, but the work was so well done in the townships that the board had little work to do in the way of changing appraisements.

A comparison with other counties serves to show how well Rush county's taxing work was done this year. In point of real estate and improvements, Rush county is sixth in Indiana this year, whereas it was fifth last year, being topped by only Benton, Howard, Clinton and Tipton counties.

Rush county's real estate and improvements have an average value of \$136.51 an acre and last year the average was \$180.44, showing that the decrease amounted to about twenty-five per cent.

Rush county was so much higher than other counties in this section that the state board raised real estate improvements ten per cent in both Fayette and Shelby counties to bring them up nearer the level of

## TENTS AT CHAUTAUQUA GROUNDS BLOW DOWN

Considerable Damage Done by Wind  
Storm Passing Over Rushville  
Sunday Night

### WRECKS REFRESHMENT STAND

A wind storm which closely resembled a small cyclone passed over Rushville Sunday night about ten o'clock and did considerable damage in several places to shade trees, gardens and two tents in the city park were laid flat, with Mrs. Cornelia Lyons, who is in charge of the refreshment tent at the Chautauqua grounds, suffering considerable loss as the result of the wind and rain damage.

The tent located in the northern part of the park for the recreation sessions, was blown down during the storm, as also was Mrs. Lyons' tent. When the tent was blown down, all of the merchandise on hand was exposed to the weather, and a cupboard of dishes was broken, and out of 60 cups and saucers only three were unbroken.

Ice cream cones, tobacco, cracker jack and other articles were damaged, and the loss will probably reach \$25 or \$35 at this place. Other sections in the county were visited by severe wind and rains, but no serious damage was reported, and the corn was not damaged as much as it was expected.

### He Got One Squirrel

Brazil, Ind., Aug. 7.—Five shots rang through the fields of the martial law zone from a far flung outpost.

Then five more and five more and after an interval, still five more. A squad of national guardsmen fully armed and equipped rushed in a truck to the place.

A sentry just recruited into the service was trying to shoot squirrels for "company mess." He bagged one.

## MINER LEADERS DRAFT PROPOSAL

Cleveland Wage Conference Post-  
Poned Until This Afternoon to  
Give Them Time

### EARLY SETTLEMENT SEEN

Ohio Operators Expected to Make  
Agreement and Others Will Follow  
Their Lead

(By United Press)

Cleveland, Ohio, Aug. 7.—Sufficient tonnage is represented here today to make the coal peace conference which opened today a complete success, Thomas K. Maher, one of the most powerful of the Ohio Conservative operators told the United Press.

The big question has been whether operators would attend in such a number as to make an agreement signed at the Cleveland parley really effective in hastening the end of the mine strike.

Mine owners and union leaders were jovial and greeted each other cordially as they awaited the opening at 2:30 p. m. of the peace conference, which was called by John L. Lewis, president of the United Mine Workers.

Cleveland, Ohio, August 7.—The miner-operator wage conference was postponed until 2:30 p. m.

This action was taken to give mineleaders time to draft a definite proposal to lay before the operators of the central competitive field.

The general policy committee of the United Mine Workers went into executive session at 10 o'clock to work on the proposal.

Operators declined to discuss the pow-wow. Members of the two factions barely nodded to each other.

A conservative estimate today was that 69,000,000 of the 207,000,000 tons of coal produced annually by the central competitive field is represented.

This estimate, based on 1918 figures included:

Seventy five percent of the 46,000,000 tons in Ohio, 16 percent of the 41,000,000 tons of western Pennsylvania, 10 percent of the 30,000,000 tons of Indiana and 26 per cent Continued on Page Eight

## CHILD SMOTHERS TO DEATH IN BED

Fourteen-Months-Old Daughter of  
Mr. and Mrs. George Solomon is  
Found Dead.

### WRAPPED IN A BLANKET

The fourteen-months-old baby daughter of Mr. and Mrs. George Solomon, living southeast of Manilla, strangled to death Saturday afternoon, when the baby got her head caught between the side bars on her baby bed, and smothered before help could reach her.

The child was left in the bed asleep about three o'clock Saturday afternoon, and when the mother returned to the bed at six o'clock, it was dead, and was wrapped in a blanket with its head forced through the sides of the bed. County Coroner W. E. Barnum of Manilla was called.

The child is survived by the parents and a brother 2½ years old. The services were conducted this morning at the late residence on the Alex Solomon farm, where the parents lived and burial was made in the Hurst cemetery, near Homer.

## GUARD LINES ARE DRAWN TIGHTER

Preparations Made for Possible Vio-  
lence As Mining Of Coal Under  
Martial Law Begins

### STARTS IN EARNEST TODAY

Authorities Watching Small Group  
Of Radicals At Linton And Ja-  
sonville Who Made Threats

(By United Press)

Brazil Ind., Aug. 7.—Strikers held a mass meeting at Twelve Points last night and laid plans for a big demonstration at Terre Haute, Wednesday, in an effort to persuade railroad men to refuse to transport coal mined by the state. The attack will be made directly on handling non-union coal which would include that mined under state supervision.

Brazil, Ind., Aug. 7.—Guard lines were strengthened today on the thirty mile front patrolled by state troops as mining of coal started under Governor McCray's orders near here in the martial law area.

Major General Tyndall commanding the 1,100 national guardsmen, shifted his lines to meet any possible violence from strikers while imported laborers prepared to resume mining on a large scale.

Thirty imported workers slept under troops protection last night, expecting to be joined sometime today by about two hundred more. Governor McCray sent word that 200 men would be sent from Indianapolis today and that capacity production would be started immediately.

Mines No. 3 and 9 of the Rowland Lower Collieries Company being operated by the state have an average of 18,000 tons a month. Twenty men working Saturday loaded one car and stripped the dirt from seventy-five more tons ready for loading. It was said six cars will be shipped daily within a short time to relieve Indiana industry from the fuel famine.

Troops at other properties of the Rowland Power company in Greene Owen, Sullivan and Clay counties carefully guarded against possibility of retaliation by the idle coal diggers.

General Tyndall is watching a small group of radicals at Linton and at Jasonville who have been making threats against the troops, but the talk was characterized as "bunk." There have been no serious outbreaks and none are expected. One sniper who tried to shoot a sentry was made the target of a machinegun stationed nearby. It is not known whether he was wounded.

## BARN BURNS TO THE GROUND AT CARTHAGE

Loss of More Than \$3,000 Suffered  
Sunday Night When Lightning  
Hits Building

### ON THE O. W. RIGHTER FARM

A large barn on the O. W. Righter farm, northeast of Carthage, burned to the ground Sunday night when it was fired by a bolt of lightning which struck it about nine-thirty o'clock.

The loss will amount to more than \$3,000, it was estimated today and the insurance will only partially cover it. In addition to the barn, between 1,000 and 1,100 bushels of corn, some rye, farm tools and forty tons of hay were burned. Some live stock may have been lost, but this could not be determined until the stock on the farm had been checked.

Although rain fell incessantly during the fire, it did not keep the flames from spreading. The barn was an old one and was constructed partly of logs. There was a granary in connection with the barn which burned rapidly.

Ed Hahn is the tenant on the farm and the owner resides in Carthage. There was insurance on both the barn and contents, amounting to \$2,400.

### CHICAGO RIDES TO WORK AFTER TIE-UP

Surface and Elevated Service Starts Today After Strike Lasting Six Days

#### COMPROMISE IS ACCEPTED

By LINCOLN QUARBERG  
Chicago, August 7.—Chicago rode to work today.

Surface and elevated service started shortly before midnight after a six day tie up.

The unions on both lines voted overwhelmingly to accept the 70 cents an hour wage compromise offered by the company.

City officials estimated that the strike cost Chicago more than \$15,000,000. Eight persons were killed as the result of accidents due to the heavy traffic and hundreds were injured.

The "jitney fleet" which for five days transported Chicago was practically demolished.

## America Leads in Home Comforts

The average American home has more comforts and conveniences than the palaces of Europe. Home for home, the American household has a well-kept look, an atmosphere of prosperity and contentment you cannot find in the homes of any other country in the world.

In foreign lands, the modernized dwelling, as we know it, is found only in limited numbers and then only in the larger cities.

In America, even in remote rural districts, you find pianos, vacuum cleaners, washing machines, up-to-date heating systems, telephones and numberless appliances that go far to make life easier, happier and more worth while.

You may not realize it, but America's high standard of home life is due largely to advertising. For the development of advertising is distinctively American. It has taken its place as a leading force in bringing together the interests and wants of a great, united people. And a large share of the credit for this development is due to the newspapers.

Stop and think how many of the appliances you use, the foods you eat, the clothes you wear, and other articles entering into your every-day life, were popularized by newspaper advertising.

Then you will realize what a vital part advertising has played and is playing in your daily life.

**You owe it to yourself to read the advertisements. They mean a lot to you.**

# PUBLIC SALE

pointing out the strain and sorrowful task that he had before him, and the manner in which he assumed command of the situation. In a striking manner the speaker portrayed the declaration of peace and how it affected the president, but how soon after that the sorrow again entered his life, when he was assassinated while attending the theatre.

The Rev. Mr. McMichael will also act as platform manager during the assembly, and assumed charge in that capacity last night.

Col. W. G. Everson, who is brigadier general of the troops in training at Camp Knox, left his military position long enough to motor to Rushville to fill the engagement here last night, and delivered a most pleasing address on "The Challenge of the Impossible," in which he depicted war experiences from his own observations while a soldier in the World War.

He suggested many "Impossible things" everywhere—business political and religious impossibilities that come in a mighty challenge and the measure of the man is the spirit in which the challenges are met and overcome, the speaker pointed out.

Col. Everson began his lecture with several of his war experiences, which were highly appreciated because they were of a different variety, and touched the audience. His entire address was eloquently delivered and in his rapid fire manner he went into the heart of the situation and pointed out several obstacles which prevent World Peace. On account of the threatening weather Col. Everson was forced to hurry through, but he did not leave anything undone in stressing the point to his address, in which he urged that men do other things for humanity than accumulate wealth, and that the object in life should be to accomplish the things which loom forward as impossible.

Preceding the evening program, Mrs. Daisy Asman, who will have charge of the recreation this week for the children, appeared and spoke on the course which she will follow this week, and urged all of the children to attend her meetings which will be held in the tent, located north of the coliseum.

She will entertain them, and prepare them for a pageant to be given Saturday afternoon, and parents are urged to have their children visit the tent each afternoon. A preliminary meeting was held this morning at nine o'clock in which several children met her at the tent, and she outlined the program for their play this week.

Tuesday promises to be one of the banner days of the chautauqua because of the high class talent that is offered. The lectures by Maude Ballington Booth and the Rev. W. S. Rice, and the two concerts by the Visocchi Trio will be treats for local audiences and the management believes that patrons of the assembly realize that fact and patronize them liberally.

### RUSH CHAPTER MEETING

Rush Chapter No. 24 R. A. M. will hold their regular meeting Monday evening beginning at 7:30.

Indiana Briefs

Muncie, Ind., Aug. 7—Police were still searching today for yeggs who opened three safes at the McNaughton store here escaped with between \$7,000 and \$8,000 in cash and checks, receipts of Saturday's business. They picked a lock on the front door to enter the building during the one hour of the twenty-four when no watchman was on duty—between 8 and 9 o'clock Sunday morning.

Sullivan, Ind., Aug. 7—Charles McDaniel, 28, fireman on the C. & E. railroad was killed instantly when he stuck his head out of the engine cab and was knocked into Bosserson creek by beams of the bridge.

The engineer watching the track didn't notice his fireman had disappeared until the train arrived at Paxton six miles away.

NOTICE OF ADMINISTRATION.

Notice is hereby given that the undersigned has been appointed by the Clerk of the Circuit Court of Rush County, State of Indiana, administrator of the estate of Mary J. Puntene, deceased.

Said estate is supposed to be solvent.

HOW TO GET ON:—Ask, and it shall be given you; seek, and ye shall find.—Matthew 7: 7.

### Rational Unionism

The United States Railroad Labor Board is certainly sound in the position it has taken in encouraging railroad workers to form organizations to represent them in negotiations with railroad managements and with the Board. Where there are thousands of employees, it is manifestly impossible for each and all to have a personal hearing. Through an organization, some of the employees must speak for all.

Thus attitude is thoroughly in accord with the principles enunciated by Mr. Harding while he was still a Senator but an aspirant for the Republican nomination for President. In a letter written in December, 1919, Mr. Harding declared his belief in rational unionism and said that "organization and collective

bargaining, under wise leadership, have done more to advance the cause of labor than all other agencies combined," but he also took occasion to point out that there is a difference between collective bargaining and dictation. "I do not believe in any class domination, and the long fight to remove the domination of capital, now fairly won, is lost if labor domination is substituted in its stead."

The trouble with Mr. Gompers and a few of his lieutenants is that they have assumed that their organization is the only one that can be dealt with even if made up of people who are not employees. They cannot see the absurdity of expecting railroads and the Railroad Labor Board to deal with an organization of non-employees instead of an organization of employees.

The fact of the matter is that certain shop employees quit—severed their employment with the railroads. Other men have taken their places and the Railroad Labor Board suggests that those other men form an organization and appoint committees to speak for them. But Mr. Gompers and his associates expect the railroad managers and the Board to deal with men who are not employees rather than with men who are. By their attitude they demonstrate that when they talked of collective bargaining, they did not mean bargaining at all—they meant dictation. In the letter above quoted, Mr. Harding was speaking of the benefits derived from "rational unionism" not the irrational and indefensible species of unionism which would be maintained by Mr. Gompers if he had the power. In that same letter, speaking of the powers of the Railroad Labor Board, Mr. Harding said, "It is far afield from the main question to talk about enslaving the laboring man. Nothing is farther from the truth. The law specifically preserves to the individual his right to quit his employment. It provides the government's guaranty of just treatment while he remains in the railway employment."

There we have the substance of the matter. The act creating the Railroad Labor Board protected employees from injustice so long as they remained in railroad employment. They were at liberty to quit, and many of them did quit. Having quit, they are no longer subject to the railroad labor law nor entitled to its specific benefits. The men who took their places and who are employees, are entitled to appeal to the special provisions of that act. Mr. Harding as a newspaper pub-

## Mysterious Quest of Germans For ?-Ray May Be Key to Next War; Allies Powerless

By CARL D. GROAT  
(By United Press)

Berlin, Aug. 7.—German scientists, in secret, are seeking the great-Ray, which may prove the key to waging of the next war.

The International disarmament commission realizes this full well, but cannot ferret out the exact sources of the experiments, nor can it very well under its power prevent this scientific research.

The ?-Ray in itself may or may not be warlike; it may prove, too, a boon to humanity. Hence the commission is powerless to act, but it knows that if German science keeps up its record of other years it has a good chance to discover this hidden ray which scientists of other nations, too, are hunting as a possible war weapon.

The question mark-ray lies somewhere between the X-Ray and the ultra-violet ray. There are, with rays, a series of octaves, as in music. The field between the X-Ray and the ultra-violet ray consists of several octaves—an untouched field which may contain a ray that would strike death and destruction to peoples and their goods.

Members of the International commission believe that there may be developed a ray which will revolutionize warfare. So far, however, experiments have proven rather fruitless. An Italian claimed several years ago to have discovered a ray which could be transmitted through the air to ignite heaps of ammunition at a distance. Investigation proved, however, that he was using a time fuse to assist in his "experiments" in blowing up munitions.

That there are rays yet unexploited is certain. Whether they possess a deadly power on a beneficent action, however, is still a mystery. And out of this mystery arises the peculiar designation of the much-sought ray—the ?-Ray.

The International disarmament commission also finds that the German militarists are badly delaying work which should long since have been accomplished.

This information came from a member of the commission who

pointed out that, particularly with the matter of munitions factories allowed to Germany for her present army, there is a tendency to balk the entente representatives at every turn.

The central government under Chancellor Wirth is not blamed for this proceeding. In fact, entente officials who have had business to transact with the chancellor find him an honest straightforward man who has done more than any other official since the war toward fulfillment of German obligations and restoration of good relations with the outside world.

But officers of the old school still in the army establishment are putting obstacles in the commission path. They decline to dismantle plans as rapidly as the commission demands. And they act apparently on the theory that they can pursue such dilatory tactics that they will tire out the commission.

The commission intends to stay until the disarmament work is completed, and completed to its satisfaction.

The plan put forth by the militarists for converting munitions plants foresees a period of four to five years; but the commission is insisting that this work be accomplished in much shorter time.

Gas masks have finally been denied the German army. This was due largely to the French fear that if masks were allowed, "it" would mean that experiments with gas development would be undertaken.

The navy, however, has been allowed 15,000 masks, as these were found to be necessary to protect gunners from the gases of big guns. There are, besides these masks, however, quite a quantity of gas masks in Germany, used in mines and in certain factories.

Intimations that German chemists were experimenting with war gases have come from time to time to the commission, but the latter is convinced that there is little to fear from these sources at the moment, especially as the outside world has made tremendous progress with gases since the war.

TAIL LIGHTS TAKE SHUTOUT CONTEST

Exhibit Unusual Form Sunday And Win From Indiana Travelers By Score of 11 to 0

HOBART GIVEN SUPPORT

Local Aggregation Playing High Class Brand of Ball And Pitcher is Going Good

The Tail Lights exhibited unusual form Sunday giving Hobart excellent support, and won from the Indiana Travelers of Indianapolis by the score of 11 to 0. The locals gathered ten hits, and gave Hobart good support in the field, while the visiting team made ten errors which proved costly.

In the last three games the Tail Lights have played a brand of ball that was their custom for the last two seasons and with Hobart pitching in the style he is now, it will be hard matter for a club to stop them.

In the last three games, Hobart has allowed only 12 hits, an average of 4 hits for a game and an average of 1.3 runs a game. The team's batting average for the season under the present management now stands at .362, a mark to be proud of.

The game Sunday was a hit and run affair for the locals, as they scored almost at will, with five runs in the eighth inning which boosted their count up to 11.

The line up and summary:

Two base hits, Shaw, Hobart, Byrne, Banks. Three base hits, Joyce, Sacrifice hits, Sharp, Bennett. Double plays, Shaw, unassisted; Pearcefield to Linne to Link; base on balls, off Hobart 1, off Pearcefield 1; hits, off Probes 3 in 3 innings; off Pearcefield, 7 in 5 innings; struck out by Hobart 4; Probes 1, Pearcefield 4; wild pitch, Hobart; umpire, Trader.

The Score Board

Five hits in the fourth inning off Burleigh Grimes gave the Reds six runs and a six to three victory over the Robins.

Tobin's two homers—one with the bases filled—enabled the Browns to beat the Senators, 8 to 4.

The White Sox lost their fifth straight game when the Athletics beat them 5 to 1.

Two passes and two bunted singles in the 12th inning pushed over the run that gave Cleveland a 3 to 2 victory over the Red Sox.

Yesterday's Home Run Hitters

Ruth, Yanks, 1, total 20.  
Tobins, Browns, 2, total 10.  
Speaker, Indians, 1, total 8.  
Dahbert, Reds, 1, total 7.  
Goslin, Senators, 1, total 1.

Ruth Yesterday and Year Ago

1921—Thirty-ninth homer in three up against Detroit.  
1922—Doubled to right. Beat out an infield hit to second. Flied to center. Twentieth homer into the right field bleachers. Flied to center. Hit into a double play.

By HENRY L. FARRELL (United Press Sports Editor)

New York, August 7—In a field of sport where all new strategy was supposed to have been exhausted years ago, baseball this year has sprung a new one.

Since the time when there were more than nine men available on a team, the pinch-hitter has become an institution of smart baseball, but it remained for 1923 to develop the pinch-pitcher.

Leg Fohl, the wise manager of the St. Louis Browns, was the first one this season to resort to this new strategy.

At a critical moment in the recent crucial series between the Browns and the Yanks, Fohl derrieked the sensational young "Shucks" Priett, after he had fanned Babe Ruth for the third time.

The fans couldn't understand the reason for the move when Van Gilder, a big right hander was sent into pitch to Meusel.

"I want a right hand pitcher to pitch to a right hand batter. That's simple," Fohl said when asked to explain the strategy. It worked too.

Kid Gleason then came along with example No. 2 and it started the most interesting battle of managerial wits that has been seen on the Polo Grounds.

It was the last half of the ninth inning with the White Sox leading the Yanks 7 to 4.

Ruth walked to start the inning. Meusel and Schang went out making it two down. Ward and Scott singled filling the bases. "No Hit" Robertson was pitching. The weak hitting McNally was coming up when Huggins sent in Frank Baker to bat for him. Gleason dashed out and ordered Southpaw Ferdy Schupp to relieve Robertson. Huggins jerked Baker back and sent in Fred Hoffman, a right hand batter, for Baker. Schupp got rattled and walked Hoffman forcing in a run.

Murray, young pitcher, was due at the bat but Huggins jerked him and sent in Miller, a right hander to bat. Gleason called for a right hand pitcher and young Blankenship trudged in from the bull pen. Huggins again countered by pulling back Miller and sending in Lefty O'Doul, a left hand batter. O'Doul smacked out a single and scored two runs tying the score.

The battle of wits might have been

continued but both Gleason and Huggins were out of players, and they had to finish according to Hoyle, the White Sox finally winning in the eleventh by the crack of Amos Strunk, Gleason's last pinch hitter.

Jack Dempsey and Harry Wills will not be allowed to fight for the heavyweight championship in Jersey City, according to an opinion expressed recently by one of the Jersey boxing commissioners.

The commission is said to have nothing against the boys personally, but they would rather have the reformers wait on the commission of some other state.

George Washington Harper, the new outfielder of the Cincinnati Reds is the most impressive young gardener to come up this season. His early season work was handicapped by illness and he did not begin to hit his real stride until July.

"Hack" Miller called that because he is built on the lines of one, and Arnold Stutz, both of the Cubs, have shown fine form. Miller is a terrific batter, but he is too immense to get around with great speed. He is said to be the biggest and strongest player in baseball. Stutz is fast, a fair batter, but he has shown a weakness on ground balls. Harper seems to be the best all-around player of the trio.

Because Commissioner Lendis reinstated Walter Schmidt, the hold-out catcher of the Pittsburgh Pirates, so promptly, he has been criticized in some circles. Since Schmidt had a legitimate claim for more money and since he remained idle during the controversy instead of jumping into outlaw baseball, the commission could do nothing else and be just.

Many of the players were elated at the action of Landis, taking it to mean that they have a friend in him when he is called upon to arbitrate a question of salary.

Tommy McGinty, the genial Cleveland impresario and manager, is tipping all his friends to go for the family lot that his boy Danny Frush will knockout Johnny Dundee when they meet in Brooklyn on August 14 for the featherweight championship of New York Boxing Commission.

LITTLE WORK NECESSARY

The Estimate of The Association Secretary is That More Than 130 Golfers Will Enter

French Lick, Aug. 7—The new million dollar golf course of the French Lick Springs hotel company over which the Indiana state tournament will be held next week, will be put in readiness this week for the start of the qualifying rounds, opening next Monday.

Little work is necessary to make the course perfect except cutting grass on fairways and putting greens.

The start of the tournament will be made next Monday with the qualifying rounds. Players will be paired for this round Sunday night, though the belated entries can be started at the tee.

The estimated of J. J. Mossler, Association secretary, of Indianapolis is that more than 130 golfers will enter the play. The program consists of 32 players, in the championship flight, 64 players in four lesser flights, and 36 holes of medal play on the lower course for all those who did not get in the match play events.

There are thirty clubs in the association, all of whom it is believed will send one or more players.

Playing the French Lick course is no easy matter, which means that the winner of the tournament will have gone through a grinding week's program of terrific mental and physical strain. Who this man will be is conjectural, but the dopesters say to the honor is among Johnny Simpson, Vincennes president state champion; Danial Sanders, South Bend, runner-up last year; Robert Resener, Kokomo, former state champion and the following—Will Diadel, Indianapolis. Ed Lennox, Indianapolis, Burr Sweezy, Lafayette and Eldie Zismer, Indianapolis. Another selection of championship timber is Baxter Sparks Terre Haute, Princeton University student.

FLATROCK WINS ONE

The Flatrock baseball team of this county defeated Arlington, 6 to 5 in a game Sunday at Porter's camp, southwest of Shelbyville. The game was exciting because the score was tied until the last of the ninth when Flatrock drove in a run.

Nothing in Old Theory

I have known a vast quantity of nonsense talked about bad men not looking up in the face. Don't trust that idea. Dishonesty will stare honesty out of countenance any day in the week, if there is anything to be got by it. Dickens.

DISCH IS DEVELOPER OF MANY BALL STARS

Billy Disch, coach of the University of Texas, who has just won his eleventh consecutive baseball championship for Texas U., a member of the Southwest conference. Disch is an old Texas league star, and has turned many college baseball stars over to the big leagues. Most prominent among his "boys" are Bill Killefer, now manager of the Chicago Cubs, and Bill Fulk.

NOTED STALLION TO RETURN

Sweeper II, Which Has Been Making Great Record in France, Is to Be Sent Back.

Sweeper II is coming home. To the general public this may mean nothing, but to those who follow the turf it is mighty fine news. Sweeper II has been making a great record in the stud over on the other side at Mrs. Harmanus B. Duryea's Haras du Gazon, in France. He has been a great rival of Durbar and Irish Lad in quality of his get, and his return to this country will be a salutary move for the breeding of thoroughbreds here. Mrs. Duryea will send him over in the near future. Sweeper II is a son of the noted Broomstick out of Ravello II.

PLOT FRUSTRATED

Dublin, August 7—An insurgent plot to isolate Dublin by destroying bridges, railroads and wire communications was frustrated Sunday, the Free State government announced in a communique today. A detachment of 180 rebels involved in the plot were arrested, it was stated.

Friendless Flowers

It has recently been discovered that flowers, like human beings, have friends and enemies in their own world. If certain varieties are put together in a vase some of them will droop almost as soon as they are placed in the water. Sweet peas, for instance, will not live in company. Some flowers, such as the mignonette, lily of the valley, and shirley poppy have a bad effect on almost all neighbors, and are practically friendless.

SPORT CHATTER

Victory of Dick Williams and Watson Washburn in the doubles at the Seabright tournament is expected to win them a place on the American Davis cup team with William T. Tilden and William M. Johnston.

New York—Carley White, Chicago lightweight and Bobby Barrett, young Philadelphian, are to fight fifteen rounds at the Velodrome tonight. The winner will be matched with Benny Leonard.

Ansonia, Conn.—For permitting the St. Louis Cards to play an exhibition game against the Ansonia Elks on Sunday Mayor John C. Mead was arrested by his chief of police. He was released under \$200 bond.

Hackensack, N. J.—Harry Harper, South paw pitcher, released by the New York Yanks, pitching for the Emmets let the Woodlawn A. C. down without a hit or a run. He fanned 17 and didn't issue a pass.

New York—Gene Sarazen, national open champion paired with Tommy Armour, defeated Walter Hagen, British champion, and Joe Kirkwood in an exhibition match, 3 and 2.

New York—After getting his money from Tex Rickard, Lew Tendler returned to Benny Leonard the \$5,000 forfeit which he claimed when the champion called off last summer's fight. The forfeit claiming clause caused the boys to get mad at each other.

Bristol, Tenn.—Outfielders Herman and Harry Lawne, twin brothers of the Bristol Appalachian League club, have been sold to the Detroit Tigers.

New York—John Gooch, Pittsburgh catcher, who was thought to have been dangerously injured when he was hit on the head with a pitched ball, is not seriously injured but will not be able to play for several days the doctor said.

Cambridge, Mass.—To keep out the knockers who razed the Harvard eleven last season, the athletic committee will try to keep all the football tickets this fall in the hands of Harvard men.

New York—Since Gene Sarazen, former New York caddy, won the national open championship, the west Chester-Baltimore club is swamped with youngsters wanting to carry the bags.

SISLER ON TOP

St. Louis, Mo., August 1—George Sisler, St. Louis Browns first baseman, is at the top of the American league batting today following his return to the game Saturday. In two games he counted five hits out of eight times and with an average of .411 has passed Cobb who slumped from .412 to .405 by getting but one out of six.

## SOCIETY

Edited By Miss Edna Krammes  
Phone 1111

Miss Marian Hinchman of near Greenwood entertained the members of the 4 H sewing and baking club at her home Friday afternoon.

Mr. and Mrs. Will Prendergast, and Miss O'Conner and Miss Walsh were the guests Sunday of Mr. and Mrs. Dora Hillgoss living southwest of the city.

The ladies Aid Society of the First Baptist church will hold an all day meeting Wednesday at the church and all the ladies who are not attending Chautauqua are urged to be present.

Mr. and Mrs. Charles Culbertson and sons were the dinner guests of Mr. and Mrs. Omer Trobaugh Sunday. In the evening Mr. and Mrs. Clarence Warfield and daughter Mary Elizabeth of Indianapolis were also guests.

Mr. and Mrs. Russell Barringer entertained with a pitch-in dinner Sunday at their home in N. Perkins street. The guests were Mr. and Mrs. Henry Morelock of Losantville, Ind. Mr. and Mrs. Fred Brown and Mr. and Mrs. Will Ruhlman.

Engraved invitations have been received here announcing the formal opening at Richmond Saturday of the Polly Prim Tea room by Mrs. Ethel Conaway Peters, formerly of Rushville. The new establishment is located at 11 South Ninth street, Richmond.

Dr. and Mrs. Elmer Young and son Richard and Mrs. Schrader and daughter Anna of Kokomo were the house guests of Mr. and Mrs. Sam Young over the week-end Sunday. Mr. and Mrs. Young entertained the Kokomo guests, Mr. and Mrs. Frank McBride and family of Mays and George Young of this city.

Dr. and Mrs. R. J. Hall have announced the marriage of their daughter Pauline to Harry Benham which took place in Columbus, Ind., May 10. The bride is well known in this city, having been a graduate of the local

### WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Rushville people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

Mrs. W. A. Wydie, 824 N. Arthur St., Rushville, gave the following statement September 20, 1915: "My trouble began with a clutching digging pain directly across my kidneys and over my hips. The pain was terrible and I had to be given pain-easing tablets by the doctor to relieve it. I was unable to do my housework for a week and was in misery. Others of my family had taken Doan's Kidney Pills with excellent results so I began using them. I did not have to use a whole box before the pain let up and soon disappeared."

On November 4, 1920, Mrs. Wylie said: "I still have the same high opinion of Doan's Kidney Pills. I haven't had to use them lately as my cure has been a lasting one."

Mr. and Mrs. J. B. Pusey entertained with a pitch-in dinner Sunday at their home in this city. The guests were Mr. and Mrs. Vernis Kitterman and son Bobby of Shirley, Ind., Mrs. C. W. Pusey and daughters Katherine, Dessa and Lora, Mrs. Tillie Vogle and Charles Pusey of Indianapolis.

Mrs. Bert Abernathy entertained Friday afternoon at her home, 705 North Sexton street, in honor of her daughter Willowdean's eighth birthday anniversary. The guests included Wilma and Marjory Tribbey of Greensburg, Helen, Loretta and Theresa Bishop, Jean and Martha Baxter, Vivian and Marian Bates, Ruth Readle, Alice Marie Norris Norma Conde, Virginia Brown, Mary Louise Heck, Anna Edwards and Loretta Abernathy.

Announcement was received here today of the wedding of Miss Florence Erma Chase, daughter of Mr. and Mrs. Fred Chase of Cardington, Ohio, to Frank B. Worster, son of Mr. and Mrs. Frank Worster of Anderson, formerly of this city. The wedding occurred at Cardington August 1 and Mr. and Mrs. Worster will be at home there after August 15. Mrs. James Miller, living west of Rushville, who received the announcement, is a great aunt of the bridegroom.

Mr. and Mrs. Albert Winship entertained with a family dinner party Sunday at their home in North Main street, honoring Mr. and Mrs. Fred Winship, of Phoenix, Arizona. The guests were Mrs. Eunice Moore, Melvin Moore, Mr. and Mrs. Charles Winship, Mr. and Mrs. Earl Winship, Mr. and Mrs. Bert Davidson, Mr. and Mrs. Vincent Young, Mrs. Boone Power, Mr. and Mrs. Paul Davidson and Donald Power and Lawrence Davidson.

### Shaved Lincoln For \$10 And Tobacco

Ada, Okla., Aug. 7.—Charles Wesley Ellis, 118, "Patriarch of Pontotoc county," is believed to be the oldest white man in Oklahoma.

Ellis' life has been one of adventure. He was born in Alaska, and, at the age of four, he was stolen from his parents and brought to the United States.

Ellis served under General A. J. Smith and Sheridan in Tennessee and Georgia. Once, while soldiering in the Union army, Ellis acted as barber for Abraham Lincoln, who was visiting the front. He got \$10 and a plug of tobacco for the shave. He acted as barber for General Grant. "Don't worry" was the best advice Ellis could give to prospective centenarians.

### FARES WELL WITH STATE TAX BOARD

Continued from Page One

established by Rush county. There were also many inequalities in Henry county assessments, which necessitated fourteen different horizontal increases in as many different units of the county.

Local taxing officials are reported to have had a hard fight keeping the state board from placing a small horizontal increase on land and improvements because of the effort on the part of Hancock county taxpayers to get a decrease. They used Rush county as a comparison and urged that their valuation be lowered or Rush county's raised. The state board finally lowered Hancock's appraisal, making the average for land and improvements \$136.17 an acre.

## RADIO

### VARIOMETER SET ON A VERTICAL PANEL

#### Method of Building This Receiver and Setting It Up Explained in Detail.

The radio receiver described here is one using a variometer for the tuning circuit and mounted on a vertical panel, 6 inches by 8 inches, instead of a horizontal base board.

To support the panel in a vertical position a small base board four inches wide by six inches long and 1/2 to 5/8 of an inch thick is screwed to the panel.

The material required for the variometer follows:

One piece of bakelite or stiff cardboard, tubing, three inches long and 3 1/4 inches outside diameter. Cost about five cents.

One piece of bakelite or stiff cardboard tubing 1 1/4 inches long and 2 3/4 inches outside diameter. Cost about five cents.

100 feet of No. 26 DCC wire. Cost about 25 cents.

Six inches of 1/4 inch outside diameter brass tubing costing about 25 cents.

Four small blocks of wood as shown in Fig. 18.

One panel 6 by 8 by 3/8 inch. Eight small round-head 1/4 inch long brass wood screws.

One base board 4 by 7 by 1/2 inch. One standard four-inch diameter dial and knob to take 1/4 inch shaft, costing about \$1.50.

Seven binding posts.

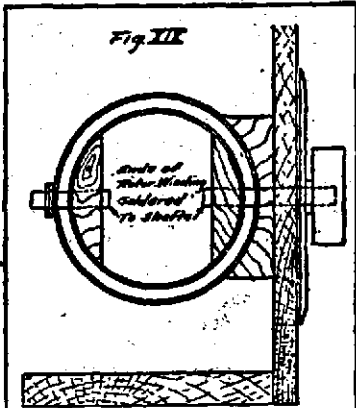

Fig. 18 shows how the details of the variometer are assembled.

The rotor is wound with 40 turns of No. 26 DCC wire, divided into two groups of 20 turns, each symmetrical with respect to the center

hole should be such that it be a forced fit for the 1/4 inch diameter shaft.

The winding on the stator is similar to that on the rotor. There are 40 total turns divided into the sections of 20 turns each. The beginning and the ending of the stator windings are 15-16 of an inch from the ends of the tube. When the rotor is assembled inside the stator, the winding on the stator should fall just above that on the rotor.

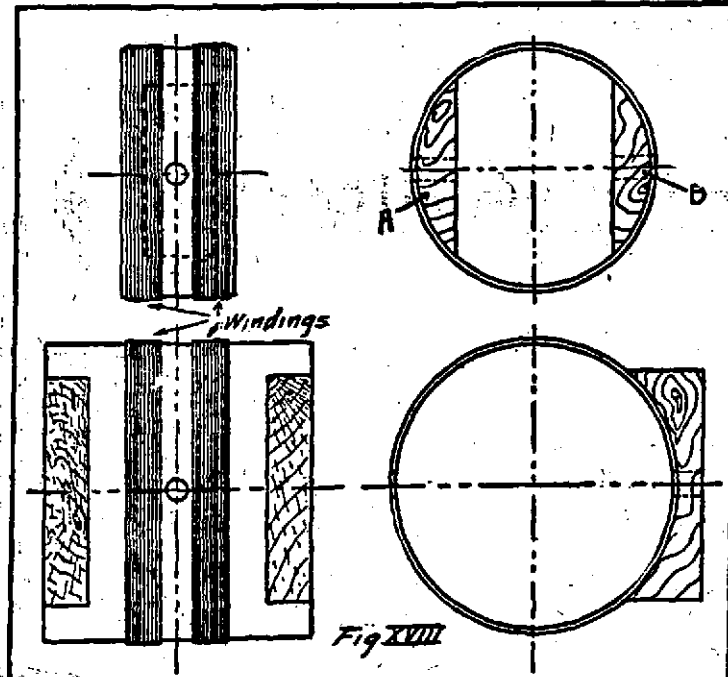

After the rotor and stator are wound, give them a thin coat of shellac and allow it to dry thoroughly before attaching the wooden blocks. Assemble the blocks on the rotor and stator and then give the assembled part a second thin coat of shellac. Put the variometer parts in a hot dry place and allow them to dry until all the volatile matter has been driven

off. This will give the windings a hard finish that will not absorb moisture, yet protect them from mechanical injury and hold them in place.

The vertical panel upon which the set is mounted is six inches high and eight inches long by three-eighths of an inch thick. It should be of a clear, close-grained wood that has been well dried to prevent warping. The panel is fastened to the base board, which is four inches by seven inches, by one-half inch thick, by means of the screws.

Before mounting any of the parts, the panel base board should be finished. Staining the panel dull

line of the rotor. Start 1-16 of an inch in from the edge of the rotor and wind on 20 turns, then, crossing over on the other side of the center line, wind on 20 more turns, so that the end of the second group of 20 turns will terminate 1-16 of an inch in from the end of the tube. Bring out the end of the rotor winding on the inside of the tube.

Cut two blocks of wood, A and B in Fig. 18, from pieces of 3-inch soft wood and fasten them as shown diametrically opposite each other on the inside of the rotor tube with some small wood screws. Drill two shaft holes, one through each side of the tube over the thick portion of the wooden block. The diameter of this block and shellacking the base board will make a pleasing combination.

Fig. 19 shows how the variometer is assembled on the panel. The center of the variometer is three and one-quarter inches up from the bottom of the panel and two and three-quarter inches from end. The assembling drawings are all to scale and by referring to them, all the details will be made clear.

Fig. 20 is a plan view of the set, showing the location of the tube socket, grid condenser with grid leak and phone condenser.

A receiver of this type is very simple in operation, since the wave length is entirely controlled by one knob and the detector by the other knob.

Scratch Pads for ink or pencil, 2 for 5c. The Republican Office.

## "Back Pay" At Princess

Scena Owen, who has a leading role in "Back Pay," a Paramount picture created by Cosmopolitan Productions coming to the Princess theatre today and Tuesday, selected the magnificent gowns she wears in this picture with the aid of Mrs. Elizabeth Lounsherry, associate editor of "Harper's Bazar." Together they toured Fifth Avenue and other streets in search of the proper gowns because Miss Owen in her role of Hester Bevins, portrays a wildly extravagant young woman who holds the purse-strings of a millionaire's wealth. The gowns are worth a small fortune.

Hester Bevins is a country girl who on going to New York falls in with a set of men and women who lead the gayest of lives. Wheeler, a Wall Street man, establishes Hester in a gorgeous apartment, furnished to the queen's taste, and surrounds her with costly furs and jewels fit to ransom a king. In order to have expert guidance in the selection of her apparel Miss Owen enlisted Mrs. Lounsherry in the cause of accurate motion picture.

"Back Pay" is a Fannie Hurst story, adapted to the screen by Frances Marion. It was directed by Frank Borzage. Besides Miss Owen those who have important roles are: Matt Moore, J. Barney Sherry, Charles Craig and Ethel Daray. The picture is released by Paramount.

## "The Silent Vow"—Mystic

The great waterfall scenes in the William Duncan production, "The Silent Vow," which will be shown at Mystic Theater today and Tuesday, provides one of the greatest thrills in a spectacular and thrilling picture.

The story provides that a series of blasts which have been set by fish poachers shall, in the end, prove their undoing. The giant explosions follow one another down the river and each explosion brings to the surface countless fish which the poachers gather

in boxes and take ashore. At the climax the giant explosions, following one another down the river, in actual pursuit of the flying canoes of the poachers, come to a mighty climax when men and canoe sweep over the falls.

In making this picture Duncan was obliged to spend a vast amount of time and practice on double exposure work as he plays a dual role. The story hinges about the fortunes of a man whose wife had run away with another, leaving the father with a little boy. The father is an inspector of Northwest mounted police, and the son later becomes a police officer. The sons of the man, who years before had run away with the wife and mother, come in to the story and the younger generation perpetuates a feud. Chases of fish poachers, hand to hand battles, daring escapes and vivid scenes of life and love that is born in the wild, brisk Northern woods, make an exceptionally fine play for William Duncan and his fair co-star, Edith Johnson.

## LOCAL AD COMMENDED

A copy of the July 22 issue of the American Artisan and Hardware Record containing a reproduction of an advertisement inserted in the Daily Republican by Gunn Haydon, Rushville hardware dealer, has been received here. The advertisement was 4 1/2 by 8 inches and was reproduced to emphasize the fact that hardware dealers can conduct mid-summer sales with profit. The magazine points out that all of the type in the ad was readable without special effort and otherwise commends its style and the idea as well.

# ITALY SETTLING DOWN'S. A. MONEY FLOWING TO INDUSTRIAL PEACE INTO LONDON COFFERS

Statistics Just Completed Show That During 1921 Strikes Decreased 50 Per Cent

## 1,045 STRIKES REPORTED

By HENRY WOOD

Rome, August 7—That Italy is steadily settling down industrially is demonstrated by the fact that statistics just completed show that during 1921 strikes in Italy decreased some fifty per cent over the preceding year.

Incomplete returns for the first half of 1922 indicate that the same ratio of decrease over 1921 will be maintained during the present year.

The complete statistics for 1921 show a total of 1,045 strikes in which 634,564 workmen participated with the total result of a loss of 7,772,879 working days.

This was a decrease of 44.41 per cent in the number of strikes over 1920; 49.16 per cent in the number of strikers and 52.60 per cent in the number of working days lost.

## CARD OF THANKS

Fashionable Hotels Are Heavily Endowed With South American Guests Bent on Shopping

## NOT SIGHT-SEEING TOURISTS

London, Aug. 7—London is suffering joyfully a South American invasion.

Fashionable hotels are heavily endowed with South American guests, the wives and daughters bent on shopping, the men on enjoyment, tempered with business.

Not since 1914, hotel managers, declare, has there been such an influx of Cubans and South Americans.

The South American visitors, do not make good sight seeing tourists, it is claimed, but the knowledge of the big department stores which their womenkind take back home with them is almost uncanny.

After a round of the fashionable stores and jewelry shops in the daytime, Miss and Madame South America indulge their passion for dancing at night.

For their benefit, and the benefit of United States visitors, too, one hotel has completed a system of cooling its ballroom by air pumped over ice, which is wafted to the dancers through holes in the top of the ballroom floor.

## UTILITIES PLAN BIG EXPENDITURE

Indiana Public Utilities Will Spend Nearly Six Million For Needed Improvements

### 51 COMPANIES IN LIST

Industries Will Try to Keep Step With State's Progress, President C. L. Henry Declares

Indianapolis, Aug. 7. — Indiana public utility companies will spend approximately six million dollars in the state between July 1 and December 31, on new equipment and plant extensions, according to a statement today by Charles L. Henry, president of the Indiana Public Utilities.

Fifty-one presidents of utilities of the several hundred that are engaged in the gas water, light, telephone and traction service of the state, advised Association headquarters of their plans for new equipment and construction for the remainder of the year. Only seven replied that they planned no such work.

"The fifty one companies planning such work," reported they would expend \$3,182,200 before the end of the year. Other companies of who plans we are aware but from whom we have as yet no definite reports, warrant the estimate of \$5,000,000.

"Much more than half of this amount will be obtained from Indiana investors.

"The utility industries must keep step with the state and is trying to keep pace with progress now, despite general hard sledding during the war and postwar periods. If there is no rocking of the boat by political agitators, we believe Indiana public service companies will continue to measure up favorably with those of other states.

The Interstate Public Service Company, according to Harry Reid its president, will expend \$500,000 and the Indiana Service Corporation Port Wayne, has some \$300,000 worth of work that must be done before the end of the year.

J. H. Harding, superintendent, reports that the Laporte Water Works plant will spend \$125,000 and work is getting under way on the new \$500,000 gas plant at Kokomo. Reports from other companies and the amounts they must use are: Indiana Power Company, Vincennes, \$75,000; Lafayette Telephone Co., \$60,000; East Chicago, and Indiana Harbor Water Co., \$60,000; Wabash Valley Electric Co., Clinton, \$50,000; Upland Water Co., \$40,000; Richmond City Water Works, \$25,000 to \$50,000; Indiana Utilities Co., Angola, \$35,000; Sullivan Telephone Co., \$30,000; Citizens Telephone Co., Decatur, \$25,000; Washington Water Light and Power Co., \$23,000; Eastern Indiana Telephone Co., Winchester, \$20,000; Laporte Telephone Co., \$20,000; Richmond Home Telephone Co., Winchester, \$15,000; Logansport Home Telephone Co., \$14,000; Spencer Light, Power and Heat and Water Co., \$10,000; Indiana Gas and Electric Co., South Bend, \$750,000.

The Commercial Telephone Co., Warsaw; the Winona Telephone Co., Aurora, \$8,000; Nappanee Utilities Co., \$8,000; Madison Telephone Co., \$8,000; Noblesville Home and Central Indiana Telephone Co., Sheidan a total of \$11,000; Moorsville Public Service Co., \$7,000; Tell City Water and Light Dept., \$6,000; Letts Gas and Oil Co., \$6,000; Indiana General Service Co., Elwood, \$5,000; Goschen Gas Co., \$5,000; Home Telephone Co., Wabash, \$5,000; Rising Sun Water and Light Co., \$5,000; Martinsville Gas and Electric Co., \$4,500 to \$5,500; Jasper County Telephone Co., \$4,500; Princeton Telephone Co., \$3,500; Dubois Telephone Co., Huntington, \$2,500; Vincennes Water Co., \$1,500; Fort Branch Electric Light Co., \$1,000; Ellettsburg Telephone Co., \$1,000; Indiana Bell Telephone Co., \$98,000; and the Indiana Michigan Electric Co., of South Bend, \$750,000.

### BORN AT ROSWELL, N. M.

A message was received here today announcing the birth this morning of William Robert Simpson, to the wife of Claude Simpson at their home in Roswell, N. M. The baby weighed 91 pounds, and the youngster's father formerly was editor of the Daily Republican of this city and is a brother to B. O. Simpson, also of this city.

## FORMAL PROBE OF RAIL WRECK BEGINS

Inquiries Into Disaster Which Caused Death of 37 Started at Desoto, Mo.

### DEAD ENGINEER IS BLAMED

St. Louis, Mo., August 7.—Formal probe into the fatal Sulphur Springs Mo. wreck on the Missouri Pacific, which claimed 37 lives began today. Investigation of the cause of the disaster was started today at Desoto Jefferson county seat, when Coroner George W. Elders called witnesses, including members of the crews of both trains who were not killed for questioning.

The Missouri Pacific had its formal investigation well under way. The road's preliminary reports to the interstate commerce commission and the Missouri public service commission have already been made and inquiries may also be started by those bodies.

Failure of Matthew Glenn engineer of No. 4 fast Texas train which Saturday night crashed into No. 32 the local standing on the single track taking water near Sulphur Springs to head block signal was probably responsible for the crash in the belief of John Cannon assistant general manager of the road.

### WAITING FOR THE VERDICT

Ohio's Sixty-Nine Candidates Close Primary Campaigns

Columbus, Ohio, Aug. 7.—Ohio's 69 candidates for nomination in the state primary tomorrow, closed their respective campaigns today and retired to their "front porches" to await the verdict of the voters.

Nine republicans and three democrats led the tickets for nomination. Three sharply defined issues have been involved during the long campaign that has been waged during the last few weeks.

- 1—Prohibition.
- 2—Labor.
- 3—Progressivism.

### PROPOSES IT BE LEFT WITH BOARD

Continued from Page One national headquarters here remained officially silent. It was indicated that Jewell had authority to take any action he deemed advisable.

Union chiefs were pessimistic over the outlook. They believed that the seniority question would still prove a stumbling block.

The latest plan as outlined here was for the shopmen to return to work with full seniority rights while the seniority question was put up to the labor board for an immediate decision.

By JAMES T. KOLBERT.

Washington, August 7.—President Harding today may place before Bert M. Jewell and other leaders of the railroad shopmen a new suggestion for ending the strike now in its 38th day. Union leaders who conferred with Harding at the White House Saturday remained here over the week end with the expectation of meeting the President again today.

The President Saturday sounded out union leaders on the suggestion that the seniority and other strike questions be referred to the railroad labor board for settlement, but this did not meet with favor, Jewell and others asserting that the strikers would accept no compromise on the seniority issue.

In the coal strike the administration is marking time, hoping but not confident that the conference of operators and miners, called by President Lewis of the miners, to meet in Cleveland today, will succeed.

### MINER LEADERS DRAFT PROPOSAL

Continued from Page One cent of the 90,000,000 tons of Illinois.

Indications point to an early settlement of the dispute. They are:

1—Ohio operators point to the fact that in the past when a single large employer signed a scale in a district the remainder of the operators in the district usually signed. The Ohio operators are certain to make some agreement with the miners.

2—That the operators of Ohio will mass fortunes at the expense of insurgents of the other three states if the latter fail to get in line. It is pointed out that even if a nationwide settlement is made immediately there will be a heavy demand for coal for several months because of the depleted stocks of plants and public utilities.

### Men's Work Pants

Khaki—  
Pin Checks—  
Stripes—  
\$1.47

### Boys' Wash Pants 77c

Ladies' & Children's Tennis Oxfords 98 Cents

## TENANTS STRIKE DOWN IN MEXICO

Government is Powerless to Cope With Movement Launched by Occupants Against Landlords

### REFUSE TO PAY RENTS

AT One Place a Syndicate Was Formed And Renters Staged Parade to Announce Strike

(By United Press)

Nogales, Sonora, Mexico, Aug. 7.—Landlords of Mexico are facing what in this country has been talked of only as a humorous possibility—a strike of tenants.

The movement, which originated in the formation of "Sindicato" de los Aquilinos at Vera Cruz, has spread to other large cities where vast numbers of tenants are refusing to pay their rent, parading the streets with banners of protest—and what is more, actually getting away with it; without being ejected from their homes.

At Vera Cruz the "Syndicate of Tenants," organized by a certain Heron Proal, a mechanic, has grown since last March to a membership of 20,000 persons all of whom are refusing to pay rent, until reductions are made by the landlords.

The syndicate was secretly organized and March 1 set as the date for the general strike, when a monster parade, bearing banners announcing the strike passed through the streets.

Property owners were obdurate, but failed to secure the aid of authorities, who claimed they were

powerless to enforce payment from 20,000 persons. A deadlock, which still exists, resulted, the landlords endeavoring to oust the tenants and to collect the rent with equal ineffectiveness.

Subsequently organizers from Vera Cruz appeared at Puebla, Orizaba and other large cities, instituting "Syndicates of Tenants", which have succeeded in sewing up property as tightly as that in Vera Cruz.

In the middle of April the movement spread to Mexico City, with the result that on the first of June the Syndicate of Tenants in the federal capital was reported to have an enrollment of 45,000.

Strike of Mexico City tenants is expected, when it is claimed more than 80,000 will refuse to pay their rents.

Combating the situation landlords are organizing a "Union de Proprietarios", which is said to number 10,000 tenement owners who have announced that they will not yield or agree to a compromise of any sort.

Tenants have already held one great demonstration, gathering in the Alameda, the central park of the city, where they were harangued by several speakers. While there were no disorders, many of the speeches were described as violent and decidedly "bolshhevik in tone," according to reports received here.

Preparations are being made for a mammoth demonstration at the capital, simultaneously with demonstrations in all cities where tenants are striking.

### Impossible?

"Dis byak new minister, am sure," said the colored woman. "He told me husband, what weighs two hundred an' forty pounds, to beware, but he should be weighed in de balance an' four waitin'."

## POPE PIUS WILL MAKE CHANGES

His Decision to Wait Until December To Create New Cardinals, is Subject for Talk

### EFFICIENCY IS KEYNOTE

The Pope Will Exercise His Own Judgment in Matters And Not Follow Usual Customs

By HENRY WOOD

(U. P. Staff Correspondent)

Rome, Aug. 7.—Back of Pope Pius' decision to postpone, if possible, till December his first consistory for the creation of new cardinals, lies the intention of working a very radical change in the filling of all the higher political and religious offices of the church.

Hereafter, according to intimate associates and councillors of Pope Pius, all elevations to the sacred college of cardinals and all promotions and appointments in the vatican diplomatic service, are to be based purely on two things, cultural fitness and merit. Efficiency and no custom is to be the keynote of Pope Pius' administration of the Holy See.

The decision of His Holiness to work this new reform in vatican appointments and to apply it both to the sacred college and the diplomatic service is pointed out by vatican circles as indicative of Pope Pius' intention to devote himself equally to the religious and political sides of the church.

Ordinarily, Pope Pius should have held a consistory as soon as possible

after his incorporation. Not only is the sacred college reduced now by deaths from its full number of seventy to below sixty, but custom over centuries has established that each new pope must elevate as quickly as possible to the sacred college certain prelates whose position under the preceding pope entitled them to the sacred purple.

However, it is precisely this elevation by custom and tradition, and not by merit, to the sacred college, that Pope Pius intends to break up.

Centuries of custom have established that certain high positions in the church must lead eventually and inevitably to the sacred college. Hereafter, at least under the pontificate of Pope Pius, these personages will only be promoted to the sacred college on condition that they merit it.

A similar reform will also be worked in the appointments to the vatican diplomatic corps. Time and experience has developed that neither the possession of a title of nobility or a special diplomatic education necessarily produced the best type of men for the diplomatic service.

In the future vatican diplomats will be chosen merely on a basis of fitness and merit. The first appointment under this new system is that of Monsignor Bellegrietti as papal nuncio to Belgrade. Similarly, Pope Pius has announced his intention of making all nominations of bishops himself, after a personal study of fitness in each case.
